

## Copyright Transfer Agreement

Manuscript title: \_\_\_\_\_

Manuscript ID: \_\_\_\_\_

The copyright to this manuscript is transferred to the *Journal of Urologic Oncology* (JUO) when the manuscript titled above is accepted for publication.

Each author must individually transfer his or her rights to the manuscript to JUO by signing this form. If the manuscript is not published in JUO, this form is void and will not take effect.

Each author must read and sign the statements below before a manuscript will be considered for publication in JUO.

1. If this form is signed and the manuscript is published, the copyright transfer covers the exclusive right to reproduce and distribute the manuscript, including reprints, translation, photographic reproduction, microfilm, electronic form (offline, online), or any other reproductions of similar nature.
2. JUO permanently retains the copyright over this manuscript and the authors are responsible for the contribution or any material contained therein.
3. The authors retain all rights to publish the contribution or any material contained therein in the authors' other papers, textbooks, or lecture notes.
4. The authors sign for and accept full responsibility for releasing this content.
5. The authors should declare that, to the best of their knowledge and belief, this manuscript does not infringe on the copyright or other proprietary rights of any third party.
6. The authors should understand that their submission of this manuscript does not guarantee publication in JUO.
7. The authors certify that the contribution or any material contained therein has not been published previously and will not be submitted for publication elsewhere.

## Conflict of Interest Disclosure

**The authors declare no conflicts of interest (check if applicable).**

The authors whose names are listed immediately below certify that they have NO affiliations with or involvement in any organization or entity with any financial interest (such as honoraria; educational grants; participation in speakers' bureaus; membership, employment, consultancies, stock ownership, or other equity interest; and expert testimony or patent-licensing arrangements) or nonfinancial interest (such as personal or professional relationships, affiliations, knowledge or beliefs) in the subject matter or materials discussed in this manuscript.

This statement is signed by all the authors to indicate agreement that the above information is true and correct.

**The authors declare the following potential conflict of interest (Check if applicable).**

The authors whose names are listed immediately below report the following details of affiliation or involvement in organizations or entities with a financial or nonfinancial interest in the subject matter or materials discussed in this manuscript. All sources of funding in support of the work presented in the manuscript are indicated on the cover page of the manuscript.

Type complete name (first, middle initial, last name)	Signature

A copy of this form may be used if there are more than 10 authors.

## Research Ethics

**Institutional Approval of Ethics of Treatment**

I certify that full and informed consent was obtained from human subjects and that the work was performed in accordance with the humane and ethical principles of research set forth in the Helsinki guidelines. In countries where institutional review is established, this statement also attests to the approval of that institution of the protocol for all aspects of the investigation presented in a manuscript involving humans or animals.

When the authors submit the manuscript, this document must be uploaded to the JUO online submission system (<https://mc04.manuscriptcentral.com/e-juo>).
